Notes:

1. Students has taken and passed in this program may be counted towards graduation credits. While English-Taught Bachelor's Program and the Division of Global Commerce (English-Taught) of the Department of International Business must take subjects taught in English to be able to counted towards graduation credits. Advanced specialized curriculums may be validated as elective credits of the department in which they are enrolled; general education curriculums may be validated as compulsory credits of the department.
2. Those who have implemented and completed the "National Science and Technology Council College Student Research Program" may apply for the maximum of recognition of two credits for the advanced professional course "National Science and Technology Council Research Program" before March 31th in the next semester of the senior year (the next semester of the fifth year in the Department of Architecture). Applicants may apply for two credits of the advanced specialized curriculums only once.
3. Please send this application form to the Registration Section of the Academic Affairs Office (A210) for processing. A copy of the review result will be sent to each department. Applicants should pick it up from each department.
